Product Description

All In One Rechargeable Lithium Battery Pack And 10kwh 20kwh Inverter With Inbuilt Lithium Battery

Backup Protection

Power storage brick is a battery that stores energy, detects outages and automatically becomes your home's energy source when the grid goes down. Unlike gasoline generators, Power storage brick keeps your lights on and phones charged without upkeep, fuel or noise. Pair with solar and recharge with sunlight to keep your appliances running for days.

Power Everything

Power storage brick reduces your reliance on the grid by storing your solar energy for use when there is no sun. Use Power storage brick alone or combine it with other Brightway products to save money, reduce your carbon footprint and prepare your home for power outages.
